Detalles

ID del barco	**s319451**

Datos técnicos

motor

Modelo	**Suzuki DF200 APX**
Potencia	**200 hp (147 kW)**

Equipamiento

Navegación	**GPS, radio VHF**

Descripción

Remarks :
We are pleased to present this one-owner Brig Eagle 6.7 for purchase. Highly specified and kept in meticulous condition, this vessel is a fantastic opportunity to own a premium Brig model at a competitive value. 'Cool Too' has been dry-berthed on a floating aqua-dock and has undergone regular servicing by a professional marine engineer. If you are in the market for a high-caliber Brig Eagle 6.7, 'Cool Too' is the ideal selection.
The BRIG Eagle 6.7 functions as the natural successor to BRIG’s top-selling Eagle 650 luxury family sports RIB. This latest edition retains the best attributes of the original while evolving into arguably the world’s leading family RIB in its class. Minor design refinements have resulted in significant performance improvements; the deep V hull has been entirely re-engineered to enhance stability, handling, and seaworthiness, while the new multipurpose navigation mast provides a sophisticated aesthetic.
A primary advantage of an Eagle compared to a traditional hard-hulled boat is the inherent capability of a RIB to ensure you reach the harbor safely if conditions deteriorate. Guests and family will remain confident as the boat reliably powers through rough sea states until you are back at the dock. With its self-draining deck and the immense buoyancy provided by oversized tubes, taking on water in heavy seas is never an issue. Thanks to these high-volume tubes and superior stability, the Eagle 6.7 distinguishes itself from competitors; it holds a Category B (C) CE Certification, confirming it is designed for offshore use and capable of managing Force 8 winds and 4-meter waves.
The impressive seakeeping of the Eagle 6.7 does not sacrifice the performance expected from a sports RIB. The elevated tube placement and the extra-large engine shaft—which permits a wider variety of outboards—ensure the boat remains fast, agile, and fuel-efficient. Standard equipment includes ORCA Hypalon Fabric Impression tubes, SeaStar hydraulic steering, a modern console, premium helm seating, and forward-facing bench seats. Additional features include an elegant ski mast with a white nav light, a squared-off bow for expanded social seating, stern tube steps with non-slip surfaces, and aft swim platforms with a stainless-steel telescopic ladder. The vessel also features a sleek moulded splashwell with an integrated rear seat, a layout optimized for storage, an extended waterline with built-in trim tabs, and a self-draining deck. The Eagle 6.7 offers much more than the assurance of a dependable vessel; it is a genuine, high-performance RIB that serves as a complete turn-key package.
