Equipamiento interior	**calefacción (Stove heating), refrigerador**
Otras informaciones	***Este texto se ha traducido automáticamente.*** **Tensiones del sistema eléctrico: 12 V, 220 V, cockpit autoachicable**

Descripción

To cabin sloop rebuilt ex-sail sloop of the "Statendam".

This classic cabin sloop, formerly a sailing sloop from the historic ship "Statendam," has an impressive history. Built in 1925, presumably of teak, and recently completely refitted in 2024. The sloop combines the rich past of the ship with the modern finish of the refit, offering a perfect blend of character and functionality. A unique opportunity to own a piece of maritime history.

General
Other: The origin and origin of this sloop is still under investigation.

Engine, electrics, water
Other: Dry exhaust, so no winterizing required!

Safety
Other: The ship's (presumably) teak hull has been covered with polyester to make it more maintenance-free.

Bilge is dry; there is a metal sump under the engine.
