Composite Pontoon Boat Chassis – Build Your Boat, Your Way

We offer a ready-to-use composite pontoon boat chassis, designed as a solid, reliable foundation for anyone looking to build their own custom pontoon boat. Whether you're planning a fishing platform, recreational cruiser, or a compact houseboat – this base gives you full design freedom with the strength and stability of a professionally built structure.
Technical Specifications:

1. Pontoons made from high-quality fiberglass-reinforced polyester resin

2. Multi-chamber buoyancy structure for maximum safety and load capacity

3. Integrated central frame for deck and superstructure installation

4. Reinforced flat surfaces for easy mounting of deck panels and equipment

5. Hydrodynamic pontoon shape for smooth and stable operation on water

Why Choose Our Composite Chassis?

1. Lightweight & Durable – corrosion-resistant and easy to handle

2. Versatile Foundation – ideal for DIY builders, boatyards, or commercial projects

3. Save Time & Money – no need to build the hull from scratch

4. Total Freedom – design your layout, deck, and cabin exactly how you want

Optional Add-ons:

1. Transom mount for outboard engine

2. Technical brackets, roof supports, and railing bases

3. Integrated mounting inserts (on request)

This composite chassis is the perfect starting point for your custom pontoon boat project. Build it your way – for leisure, fishing, business, or living.
