Descripción

Cobrey 42 Fly – contemporary flybridge cruiser with only approx. 90 engine hours

This 2023 Cobrey 42 Fly combines contemporary European design, generous onboard space and comfortable cruising performance. Located in Croatia, she has been professionally maintained and is available for immediate delivery.

With an overall length of 14.10 metres and a beam of 4.20 metres, she offers exceptional space for a yacht in this class. The bright panoramic salon, fully equipped galley, spacious cockpit and large flybridge create comfortable areas for family cruising, extended stays aboard and relaxed days at sea.

Accommodation for six guests

The lower deck provides three cabins with six berths and two bathrooms. The practical layout gives the owner and guests privacy and makes the yacht suitable for both weekend escapes and longer Mediterranean cruises.

Propulsion and manoeuvring

The yacht is powered by twin Volvo Penta D6 diesel engines with sterndrives and has only approximately 90 engine hours. Volvo joystick control and a bow thruster make close-quarters manoeuvring straightforward, while the proven D6 propulsion delivers responsive performance and comfortable cruising.

Comprehensive equipment

Her specification includes a generator, air conditioning, hydraulic swim platform and a Garmin navigation package with GPS and chartplotter, radar, autopilot and VHF. Extensive teak decking, premium interior finishes and the spacious flybridge further enhance comfort on board.

The hydraulic swim platform provides easy access to the sea and creates an additional waterside relaxation area. The cockpit and flybridge offer excellent spaces for outdoor dining, entertaining and spending time with family and guests.

The yacht is located in Dalmatia, Croatia. A private viewing and sea trial can be arranged by prior appointment.

Asking price: EUR 640,000 plus VAT.
