Descripción

HANSE 531E A 2004 performance cruiser that combines speed, elegance, and reliability for unforgettable sailing adventures. Extensively equipped and impeccably maintained, She stands out as one of the most beautiful Hanse 531 yachts in existence today. With only seven summers of sailing behind her, mostly in the unsalted waters of the Baltic Sea, and the rest of the time under the expert care of Sailingvest boatyard in Estonia, this yacht is in pristine condition. Currently based in Barcelona, Spain. She has had only three owners since new, each of whom has cared for her with meticulous attention to detail.

HANSE 531 has been fully outfitted for ocean sailing with all-new electronics, engine, rigging and sails upgraded between 2019 and 2023. She is not only prepared for globe-trotting adventures but also a proven performer on the water, having won the ARC Atlantic crossing. This remarkable achievement showcases her capabilities as a fast and reliable cruiser.

HANSE 531 is more than just a yacht; she is a blend of elegance, speed, and comfort. Her sleek Judel&Vrolijk design, spacious layout, and high-performance capabilities make her an ideal choice for those seeking both adventure and luxury on the open seas. If you are looking for a yacht that is ready to take you across oceans with style and ease, while also being a standout in any marina, our HANSE 531 is your vessel.

Don't miss this extraordinary opportunity to own a yacht that embodies the perfect balance of performance and sophistication. Contact us today to learn more about how you can make our HANSE 531 your own and start your next great adventure.

CONSTRUCTION
Keel: Lead with Antimony, bolted externally.
Construction and Materials
Built with epoxy technology, it stands out for its robustness, lead keel and self-tilting jib concept.
Epoxy hull: The use of epoxy in the construction of the hull provides greater resistance, lower weight and prevention against osmosis compared to the standard polyester construction. Spade rudder with selfaligning bearings and composite stock, hydraulic fold-out bathing platform.
Robust Structure: Designed for long cruises and Atlantic crossings, with lead/antimony keel.
Cover: Generally equipped with teak to improve aesthetics and traction.
