The Lagoon 46 is a striking example of modern catamaran design, blending performance, comfort, and innovation. Built in 2024, this yacht offers generous living spaces and refined details that make life onboard both luxurious and practical. With a length overall of nearly 14 meters and a beam of almost 8 meters, it provides exceptional stability and volume, while the flybridge helm station ensures excellent visibility and easy sail handling.
Inside, the layout features four spacious cabins, each with en-suite bathrooms, plus an additional crew cabin in the bow. The saloon is bright and inviting, with panoramic windows and a convertible dining table that can create an extra berth when needed. Premium equipment such as air conditioning, generator, dishwasher, coffee machine, ice maker, and additional refrigeration make extended cruising effortless. Entertainment is enhanced with indoor and outdoor speakers, television, and Wi-Fi connectivity.
On deck, the Lagoon 46 offers multiple social areas: a large aft cockpit with teak finish, a comfortable foredeck lounge, and the flybridge with sunbathing space. Underwater lights add ambiance at anchor, while the Highfield tender with Honda 20 HP outboard ensures convenient shore access. The yacht is powered by twin Yanmar 57 HP engines, with ample fuel and water capacity for long passages.
With its blend of modern flybridge design, spacious cabins, and premium extras, this Lagoon 46 represents a rare opportunity to acquire a nearly new, fully equipped catamaran. It is perfectly suited for private cruising adventures, family voyages, or professional charter operations thanks to its versatile layout and registration for up to 11 persons.
