## Descripción

Leopard 40 Owners Version – 2016 | Excellent Condition | Privately Owned

This 2016 Leopard 40 Owners Version is a beautifully presented, privately owned catamaran in excellent condition. She has been well maintained, with full service history, recent upgrades, and all systems in good working order.

The Leopard 40 is renowned for its exceptionally comfortable living space, with both forward and aft cockpits flowing naturally from the open-plan saloon and galley. This creates a unique indoor-outdoor living arrangement rarely found on catamarans of this size. The aft cockpit sliding doors open completely, effectively merging the saloon and cockpit into one large, sociable living area.

This is the desirable three-cabin owners version. The starboard hull is dedicated to the owner, with a queen island bed, large private bathroom with separate shower, office space, and a sliding door to create a fully private suite. The port hull offers two double cabins with a shared bathroom, making the layout ideal for family cruising or comfortable guest accommodation.

The boat is fully equipped for comfort, including air conditioning throughout, a 6kW generator with low hours, large fridge and freezer, Corian work surfaces, full household equipment, electric toilets, TV, music system, and a drop-down cockpit table that creates an additional lounging area. She is clean, well presented, and ready to enjoy.

Under sail, the Leopard 40 is practical and easy to manage. The semi-flybridge helm allows the boat to be piloted without leaving the cockpit, and all lines lead back to a set of clutches on the coach roof. An electric winch simplifies manoeuvres, while the Raymarine 70 series navigation package includes plotter, autopilot, wind, depth, and VHF.

The cockpit and helm station are protected by hardtop biminis, with a viewing panel for easy mainsail trimming.
The full-batten mainsail and furling genoa were replaced in 2019 and have seen limited use since, due to the Covid period in 2020–2021 and only occasional use by the last two owners.

The boat has benefited from continued maintenance and upgrades, including antifouling in July 2025, full engine service in 2025, diaphragm joints changed, new batteries in 2022, new anchor chain in 2023, and a good semi-rigid dinghy with 15HP outboard new in 2024. The dinghy is easily handled on electric davits, and the charging system includes solar panels.

This Leopard 40 is a lovely example of this popular model: light, spacious, comfortable, well equipped, and carefully maintained. With her owners version layout, full comfort specification, and strong maintenance record, she is an excellent choice for a couple or family wishing to cruise French Polynesia or venture further afield.
