While retaining the core elements that made the Leopard 45 so popular, the Leopard 46 introduces numerous innovations to enhance comfort, convenience, and sustainability. The layout has been refined to provide a seamless integration between the aft cockpit and saloon, allowing for flexible living spaces. The elimination of the skipper cabin has made way for more spacious accommodations, including a choice of three cabins layout plus a utility roomwith ensuite head/showers.

Whichever power option you choose, when it comes to sailing performance, the Leopard 46 excels. The stepped hulls and powerful rig with overlapping genoa provide superior handling in all wind conditions. The protected helm station is designed for offshore single-handed sailing, making it ideal for long-distance voyages.
