Bow and thruster installation
Central vacuum system
Cockpit lighting
Remote control for the bow and stern thruster brand Sidepower.
Underwater hull is completely treated at the beginning of sailing season 2017.
2 electric folding bikes with 70 km range including charging point under the floor.
etc etc.

Basic data
• Experience: A day of boating fun; Family holidays; Large groups aboard; (Semi) permanent residence; Weekendcruiser, weekends aboard
• Berths: 4 (fixed) 0 (extra) 0 (crew)
• Motorization summary: Iveco Aifo type 8061 M 14

Price
• Trade-in possible: ✓

Specs > General
• Shipyard: Jachtwerf De Horne
• More info ce-category: A class C boat is designed to navigate in coastal waters, large bays, estuaries, lakes and rivers with a possible wind force up to 6 Beaufort and a possible significant wave height up to 2 meters.
• More info hull shape: "Gejoggeld" is the term for a steel plate being pushed through 2 rolls, which gives the plate a kink with a raised edge, which when welding a hull slides over the underlying plate. This construction method is labour-intensive and makes the hull extra solid. Airframes become relatively expensive.
• More info deck construction: Decks are fully finished with Flexitek
• Windows: Thermopane glass for all windows, the door to the back cockpit is a folding door which can be opened completely for a very wide access to the cockpit / lounge.
• Open cockpit: ✓
• More info vertical clearance: with standing mast the passage height is 4.10, mast lowered 3.40 meters
• Steering system: Wheel
• Position steering system: Inside
• Remote control: ✓
• Rudder: Single
• Keel/Lee board: Full keel
