Descripción

SUNBREEZE - Sunreef 60

Built by Sunreef Yachts and delivered in 2021, SUNBREEZE is a 60-foot sailing catamaran combining exceptional volumes, contemporary design, and impressive cruising capabilities. Designed for both private use and high-end charter operations, this model benefits from Sunreef's internationally recognized expertise in the luxury multihull segment.

With an overall length of 18.30 metres and a beam of 10.20 metres, SUNBREEZE offers remarkably generous living spaces, both indoors and outdoors. Her open-plan layout allows seamless circulation between the aft cockpit and the main salon through large sliding glass doors, creating the highly sought-after indoor-outdoor lifestyle characteristic of this range.

The yacht accommodates up to 8 guests in a 4-cabin layout, all with en-suite bathrooms, including a spacious owner's suite. The interior design emphasizes natural light, premium materials, and a refined contemporary atmosphere. The fully equipped flybridge features a large shaded lounge area and multiple sunbathing spaces with exceptional panoramic views.

In terms of performance, SUNBREEZE is powered by twin Volvo D3 150 HP engines, delivering a comfortable cruising speed of 8 knots and a maximum speed of approximately 10 knots. Stable, quiet, and highly efficient underway, the Sunreef 60 is widely appreciated for long-range cruising and outstanding comfort at anchor.

One of the yacht's standout features is her hydraulic swim platform, providing easy access to the water and facilitating the launch of the numerous water toys on board, including seabobs, paddleboards, wakeboards, kayaks, and snorkeling equipment.

She has delivered excellent charter revenues over the last two seasons and is ready to slot in to the same program next season should the new owner wish to do so.

KEY FEATURES
